

Example quiz

Scannable version: answers and student ID are marked on the last page

Instructions

Each question has **four proposed answers** (A to D) and **one and only one** correct solution. Two *implicit solutions* apply to **every** question, even though they are not printed under it:

- n** *None* : no proposed answer is correct
- all** *All* : all four proposed answers are correct

For **each** question, mark on the answer sheet one answer (A, B, C, D, n or all) **and** one degree of confidence (DC). If you change your mind, use the **second line** of that question: it replaces the first one. If you tick an answer but no degree of confidence, **DC 3** is applied by default.

DC	Probability of being correct	If correct	If wrong
0	0 – 25 %	+13	+4
1	25 – 50 %	+16	+3
2	50 – 70 %	+17	+2
3	70 – 85 %	+18	0
4	85 – 95 %	+19	–6
5	95 – 100 %	+20	–20

Questions

Question 1. The capital of France is

- A Lille
- B Lyon
- C Paris
- D Nice

Question 2. The capital of Italy is

- A Berlin
- B Prague
- C Tokyo
- D Madrid

Question 3. The United Kingdom comprises

- A England
- B Scotland
- C Wales
- D Northern Ireland

Question 4. The largest planet of the Solar System is

- A Mars
- B Venus
- C Saturn
- D Jupiter

Question 5. The chemical symbol of gold is

- A Ag
- B Au
- C Gd
- D Go

Fill the bubbles **completely**, with a **dark pen**. Do not fold.

Name and first name:

Date:

Student ID (8 digits)

Student ID: write your 8 digits in the boxes, then fill one bubble per column.

Answers: one bubble per line for the answer (A–D, n = none of them, all = all of them) and one for the degree of confidence (DC 0–5; **DC 3** if you give none).

Changing your mind: fill the *second line* of the question. It replaces the first line. Only one change is allowed.

Do not erase or use correction fluid on the first line.

[illegible]
